If we are going to get the same update tomorrow, then I don't want to go as I have other stuff to do. But if you think it's important, I'll go.

Invitation to recycLA Green Ribbon Council

Dear Andrew,

You are cordially invited to our next Green Ribbon Council Meeting. We are incredibly appreciative of your participation thus far.

Since the transition process began seven months ago, over 71,000 accounts are now receiving both trash and recycling service, with over 60,000 service agreements signed. When you consider that one account under recycLA is as large as the University of Southern California with 45,000 students and 27,000 faculty/staff, you quickly realize just how many Angelenos are served in those 71,000 accounts.

While we are proud of what we have accomplished together so far, we have work ahead of us to ensure that recycLA is the program we all envisioned.

Our Green Ribbon Council meeting will focus on what [LA Sanitation](#) and the City's seven recycLA service providers (RSPs) are doing to address the many issues raised by the Los Angeles City Council. We will present some improvement ideas, and we are eager to receive your input.

We will also discuss a new program to publicly recognize and drive business to the customers who are improving their recycling practices. Additionally, we will feature new options to help business owners and apartment owners educate their staff and tenants how to recycle.

[Please RSVP via Eventbrite](#) so that we can reserve your seat and have a lunch ready for you. Alternatively, you can RSVP by emailing publicworks.publicaffairs@lacity.org or calling 213-978-0333. If you have a dietary restriction, please let us know. *Due to the capacity of the room, we have limited registration to a maximum of two seats per organization, and we suggest registering as soon as possible.*

Kindly note that this event is invitation-only and non-transferable.

We look forward to an exciting and productive 2018 as together we Make Waste History!
